Learning Objective : This course equips primary school teachers with practical skills to identify, support, and empower students who experience academic difficulties in Grades 1–5. Teachers learn to respond to learning struggles early and sensitively, use classroom-based support strategies, and build confidence in learners without labelling or lowering expectations.

Course Modules	Brief Course Module Descriptions		
SP2301 – Understanding Why Children Struggle to Learn	This module explores academic struggles beyond intelligence or effort. Teachers examine factors such as developmental readiness, teaching methods, emotional stress, and learning gaps. A holistic understanding replaces blame-based explanations.		
SP2302 – Identifying Learning Gaps Through Observation	Focuses on recognising patterns of difficulty through classroom observation and informal assessment. Teachers learn to identify gaps in foundational skills without testing pressure. Sensitivity and confidentiality are emphasised.		
SP2303 – Classroom-Based Support and Remedial Strategies	Introduces simple, practical strategies that can be implemented within regular lessons. Teachers learn how to provide additional scaffolding, repetition, and reinforcement. Support is integrated rather than isolated.		
SP2304 – Building Confidence and Motivation in Struggling Learners	Explores the emotional impact of repeated failure on children. Teachers learn strategies to rebuild confidence, encourage effort, and reduce fear of mistakes. Motivation is addressed alongside academic support.		
SP2305 – Working Supportively with Parents of Struggling Learners	Guides teachers in communicating concerns to parents with empathy and clarity. Teachers learn how to involve families as partners rather than sources of pressure or blame. Realistic home support is discussed.		
SP2306 – Preventing Long-Term Learning Difficulties	Focuses on early intervention, consistency, and follow-up. Teachers learn how timely support prevents long-term academic and emotional consequences. The importance of monitoring progress is highlighted.
