**Learning Objective :** This course helps primary school teachers understand how motivation, confidence, and beliefs about ability influence learning and behaviour. Teachers learn how to encourage effort, resilience, and a growth mindset in children aged 6–11, while reducing fear of failure and performance pressure.

Course Modules	Brief Course Module Descriptions		
<b>SP2801 – Understanding Motivation in Primary School Children</b>	This module explores intrinsic and extrinsic motivation and how they operate in primary learners. Teachers learn what truly motivates children beyond rewards and punishment. The role of interest, relevance, and connection is emphasised.		
<b>SP2802 – Building Confidence Through Everyday Teaching</b>	Focuses on how daily classroom interactions shape self-belief. Teachers learn language and practices that build confidence rather than dependency on praise. The impact of comparison is examined.		
<b>SP2803 – Growth Mindset – Beyond Slogans</b>	Explains the true meaning of growth mindset in classroom practice. Teachers learn how to encourage effort, strategy use, and persistence without oversimplification. Misuses of growth mindset language are addressed.		
<b>SP2804 – Helping Children Handle Mistakes and Failure</b>	Examines how fear of mistakes affects learning. Teachers learn how to normalise errors and teach children to learn from failure. Emotional safety around mistakes is emphasised.		
<b>SP2805 – Encouraging Effort, Persistence, and Resilience</b>	Focuses on sustaining effort over time rather than quick success. Teachers learn strategies to support perseverance during challenging tasks. Resilience is framed as a skill that can be taught.		
<b>SP2806 – Sustaining Motivation Over the School Year</b>	Explores how motivation fluctuates across the academic year. Teachers learn strategies to maintain engagement without burnout. Balance between encouragement and expectation is highlighted.
